

Getting Connected Permanent Electric Service Checklist

Steps for New Permanent Electric Service Installation
Service cable only - this is the line from the last pole to your building.
No line construction needed - no additional poles need to be set.

This checklist will help you make sure that the necessary paperwork reaches BRMEMC and your job stays on track!

Permanent service will be extended to buildings that are permanent in nature. Examples of permanent structures include houses, manufactured homes, garages, barns, and businesses.

- 1. Call BRMEMC** at (706) 379-3121 ext 827 or toll free at 800-292-6456 ext 827 to establish your new account.

My new BRMEMC account number: _____

Please note that if customer has a temporary service, the account number will remain the same.

- 2. Review Pricing Fact Sheet.**

- * Charge for establishment of service
- * Reallocation charge
- * Underground service cable

- 3. Schedule service enclosure inspection.**

Once all items listed in step 2 have been returned to BRMEMC and your electrician has completed installing the metering equipment, you must call BRMEMC. We will need access to the main breaker. Once the service enclosure passes our inspection, we will install the meter and send you a date that we will connect your service.

- 4. Prepare site.**

Clear area of building materials between pole or underground transformer to the electric service entrance on the building.

- 5. Engineer Staking.**

BRMEMC will send an engineer to stake the service and inform customer of cost.

- 6. Complete and return the following service forms** to your local BRMEMC Service Center.

1. Payment of any costs for construction of electrical services
2. Final Electrical Inspection/Permit
